Somebody Loves You key: B

intro: **E   B   F#   G#m**   (x 3)   **A   E**

B   **F#**   **G#m**   **E**
Hey, do you ever feel alone, lost in the crowd, adrift in a sea of faces
B   **F#**   **G#m**   **A**
Hey, are you feeling out of place, like snow in June, a joker in a stack of aces

                    E   **B**   **F#**   **G#m**
Chorus: Somewhere out there, somebody loves you
                        E   **B**   **F#**   **G#m**
                 To someone out there, you're number one
                 E   **B**   **F#**   **G#m**
                 It's never stopping, keep on a rockin'
                 A   **E**
                 Open your heart - somebody loves you

B   **F#**   **G#m**
Hey, do you find it hard to trust, your hope bit the dust
                            E   **Em**
And your heart just can't take another break
B   **F#**   **G#m**   **A**
Hey, I just wanted you to know, you're not alone, take a chance and see…

(Chorus)
E *[push]*   **B** *[push]*
We're all square in a world that's round, we're all lost and we are found
G#m *[push]*   **F#** *[push]*
We're all looking for a place where we belong
E *[push]*   **B** *[push]*
Somewhere with an open door, someplace we can dare to soar
G#m *[push]*   **F#** *[push]*
Someone to say we're not alone

(Chorus break: guitar & vox only)   (Chorus)

A   **E**   **A**   **E**
Open your heart - somebody loves you, open your heart - somebody loves you
A   **E**   **B**   **E**
Open your heart - somebody loves you,   Na, na, na, na
