

# This Is The Life

key: G

**G**                    **D**                    **Am**                    **C**  
Na, na, na, na,    na, na, na, na    na, na, na, na,    na

**G**                    **D**  
There's a place I can go to rest and relax  
**Am**                    **C**  
That's quiet and still with the world off my back  
**G**                    **D**  
And as I search it out, I know you'll meet me there  
**Am**                    **C**  
You're as close as a heartbeat in the words of a prayer

**G**                    **D**  
Chorus:            This is the life, this is the place  
**Em**                    **C**  
                         Lit up by the glory that shines from God's face  
**G**                    **D**  
                         Life like no other, where I can be free  
**Em**                    **C**  
                         Peace and forgiveness are given to me  
**Am**                    **C** **D**                    **G**  
                         And by your grace I will fly, this is the life

**G**                    **D**  
Come rest from the journey, lie down and be still  
**Am**                    **C**  
You don't feel like you're loved, but he always will  
**G**                    **D**  
He'll love you like crazy and always be near  
**Am**                    **C**  
Don't you know little child, you have nothing to fear

(Chorus)

**Em**                    **C**  
Through life's twists and turnings and various ends  
**G**                    **D**  
It's good to find harbor in a place full of friends  
**Em**                    **C**  
And from this point I go on living in truth  
**G**                    **D**                    **C**  
Cause anywhere, anytime, I know that it is fine for me to meet with you

(Chorus) (key change to A)
